

Baby Jags
Andrew Hewitt

- Build Sequence.**
1. Cut out wing profile, sand to aero shape, cut off tips, sand angle and glue back on.
 2. Cut out fuselage parts and epoxy together with ply nose pieces.
 3. Epoxy wing to fuselage + finger rests.
 4. Cut fin and tail from 1/32" sheet.
 5. Attach fin and stab to fuselage noting tail tilt.
 6. Dope the entire model twice with non-shrinking dope, sand between coats.
